DETAILED ACTION

Specification

1. The amendment filed 18 November 2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material, which is not supported by the original disclosure, is as follows: Deleting the session number if it is included in the stored numbers.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Objections

2. Claim 86 is objected to because of the following informalities: The final limitation of the claims uses the terms "the number" and the numbers" to refer to the number in the session information and the stored numbers. Applicant is asked to use the full terms "the stored numbers" and "the number in the session information" to make the claims easier to understand. This should be done for all the claims. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 86, 87, 89, 91, 92, 94, 96-107 and 109-116 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in

such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The new matter is described above in the specification objection. This new matter was not found in the specification as originally filed.

Allowable Subject Matter

5. Claims 86, 87, 89, 91, 92, 94, 96-107 and 109-116 would be allowable if applicant can display where in the specification the new matter was originally disclosed.
